CODEFORCES

READ

1. HackerRank

- Best platform to start coding.
- Solve 50+ basic problems on this.
- Participate occasionally in contests.
- Good for starting coding but it's credentials are not that valuable.

Next

2. LeetCode

- Best set of problems for learning DSA.
- Attempt questions topic-wise with increasing difficulties.
- Solve at least 300+ problems.
- Good for learning DSA but it's credentials are not that valuable.

Next

3. **GeeksforGeeks** A computer science portal for geeks

- Best portal for theory of DSA.
- Newly launched practice section.
- Do DSA here in combo with Leetcode.
- Good for learning DSA but it's credentials are not that valuable.

Next

4.

- Best platform to begin/master CP.
- Start from basics to hard problems.
- Participate in contests, solve 200+ Qs.
- **Most valued ranking in industry,**
getting 4* & above is good enough.

Next

5. CODEFORCES

- Next level of CP contests, optional to do but advised for top companies.
- Participate in contests, 1-2/month.
- Good value of it's ranking in industry, getting Expert & above is good.
